

June, 2010

A MESSAGE TO ILLINOIS TAXPAYERS

he Office of the Comptroller is required by law to report on the collection of fees by state government. The 2009 Fee Imposition Report contains information on fees, agencies imposing fees, and revenue generated by fees. A special study is included that examines how fee revenues have performed during the severe recession and finds revenues from economically sensitive fees fell but not to the degree of Illinois' major tax sources.

Fees supplement general taxes in generating revenue to support the functions of government. A key difference between fees and taxes is the extraordinary flexibility government has in designing the various fees levied as occupational licenses, user charges or business fees. For this reason it is important to know the scope of fees charged by agencies and the fiscal impact those fees have on taxpayers and the state.

In fiscal year 2009, the State of Illinois collected \$7.1 billion in fees. Among revenue sources, fees are surpassed only by federal aid (\$16.4 billion), income taxes (\$12.3 billion), and sales taxes (\$8.2 billion). The 1,394 reported fees were administered by 82 agencies. Most of what is collected is deposited into restricted funds. Only \$484 million (7%) in fee revenue was deposited into the General Funds. In contrast, 36% of fee revenue was deposited into Special State Funds and 19% was deposited into Highway Funds.

As the state's chief fiscal officer, it is my duty to provide information to legislators, policy makers and the taxpayers of this state regarding its fiscal condition and the factors that contribute to that condition. Fees are an important part of the picture and are often overlooked as an important source of revenue for the state and the additional costs borne by the people who pay them. This report, therefore, is important in any assessments made of the financial picture of the State of Illinois.

Agency Fee Imposition Report submissions are available on the Internet. To get to the fee data from the Comptroller's website (http://www.ioc.state.il.us/), click on the Departments tab at the top of the screen followed by the Research and Fiscal Information button and then the Detailed Fee Data button.

I hope that you find this report both useful and informative. I encourage you to participate in this reporting with your input. We can be reached by phone at the following: (312)814-2451 in Chicago or (217)782-6000 in Springfield, or through our website listed above.

Sincerely,

Daniel W. Hynes State Comptroller

THE ILLINOIS FEE REGISTRY

Overview

During fiscal 2009, 82 state agencies administered 1,394 fees that generated \$7.069 billion in revenues. These fees are listed in the comprehensive State Fee Registry prepared by the State Comptroller's Office.

Unlike taxes, which are largely collected by the Department of Revenue, many agencies are significant fee collectors. This report identifies 18 agencies, excluding universities, that collected over \$10 million in fee revenues in fiscal 2009.

This report contains a wealth of information on fee revenues in Illinois. Fee revenues are listed by agency with a chart identifying agencies collecting over \$50 million in fees. Fees with receipts of over \$1 million are listed and a special table sets out the ten largest revenue generating fees. Fees are distinguished by the share levied on individuals including occupational licenses, personal service and user charges, and tuition versus fees levied on organizations such as regulatory, licensing, and registration charges and special assessments.

Additional analyses compute the fees' share of revenues in each fund group, list fees with unusually high rates, and compare fee collections in Illinois with collections among the other states.

Last year the Fee Imposition Report contained a special study of fund transfers to the General Funds initiated since fiscal year 2003 and the extent to which the transfers came from funds

receiving significant fee revenues. This report examines the impact the recession has had on fee revenues in fiscal year 2009 in order to determine whether fee revenues are as sensitive to the economic downturn as the major tax sources.

In reporting to the Comptroller's Office, agencies used great latitude in listing and defining their fees. Some listed each individual charge as a separate fee, while others reported many related charges under the same fee title. The fee leader was the Secretary of State which reported 461 fees (33%) divided among twenty administrative divisions. Universities accounted for 177 fees (13%) and four other agencies (the Courts and the Departments of Financial and Professional Regulation, Public Health, and Revenue) reported at least 40 fees. The remaining 68 agencies reported 492 fees or 35% of the total number of fees reported.

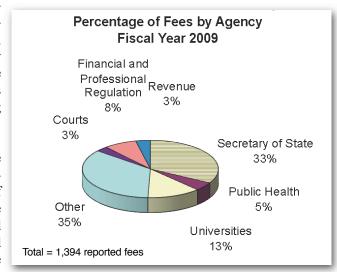

What's New in Fiscal Year 2009

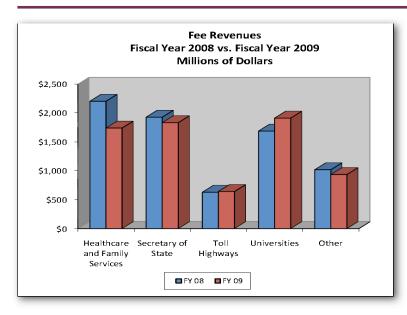

Reported fiscal year 2009 fee revenues of \$7.069 billion are down \$514 million or 6.8% from their adjusted prior year level. The decrease in fee revenues in fiscal year 2009 can be largely attributed to the Department of Healthcare and Family Services. Healthcare and Family Service fee collections of \$1.744 billion were \$462 million or 21.0% less than their fiscal year 2008 level. Fluctuations in revenues from the Hospital Provider Assessment accounted much of the decline. The hospital provider assessment rate had been 2.5835% of adjusted gross revenue for inpatient and

outpatient services for the period fiscal year 2006 to fiscal year 2008. As no assessment revenues were collected in fiscal year 2006, the three years worth of assessments had to be collected in the final two years of the agreement resulting in a surge in revenues to \$1.463 billion in fiscal year 2008. The new hospital assessment, effective for fiscal years 2009 through 2013, is equal to \$218.38 times the difference between the

hospital's occupied bed days and its Medicare bed days and generated \$899 million in revenues in fiscal year 2009. Receipts for the other large hospital assessment, the County Hospital Services Provider Assessment, increased from \$660 million to \$748 million.

The largest portion of fee revenues is reported by the Secretary of State. Secretary of State fee collections of \$1.836 billion were \$95 million or 4.9% less than their fiscal year 2008 level.

As a group, universities reported \$1.915 billion in tuition and fee revenues. In fiscal year 2009, the universities continued to turn to the option of raising tuition and fees to bridge their budgetary gap as university revenues from these sources were up \$114 million or 6.1% from adjusted fiscal year 2008 university tuition and fees. Fees reported by the fourth largest agency, the Toll Highway Authority, increased 2.0% from \$628 million to \$640 million. Toll collections fell slightly from \$591 million to \$588 million.

Among the remaining state agencies, fee collections decreased \$83 million or 8.2% from \$1.017 billion in fiscal year 2008 to \$934 million in fiscal year 2009. Fee collections by the State Treasurer decreased from \$95 million to \$71 million due to the one- time \$25 million Illinois Power Agency Assessment received in fiscal year 2008. Illinois Emergency Management Agency fee collections decreased from \$32 million to \$14 million as receipts from the nuclear power reactor annual fee went from \$26 million to \$8 million.

Newly Reported Fees

First time DUI offenders in Illinois may now be eligible to receive a Monitoring Device Driving Permit (MDDP) allowing them to drive cars equipped with Breath Alcohol Ignition Interlock Devices (BAIID). There is a \$30/month monitoring fee for this permit. New license plates were reported by the Secretary of State for fire chiefs, veterans of the Afghanistan and

Iraq campaigns, and to provide funds for grants to the boy and girl scouts and to Special Olympics Illinois. A new \$500 fine on sex offenders is deposited by the Treasurer into the Sex Offender Investigation Fund for grants to investigate alleged sex offenses.

New regulatory fees include a \$75 fee for dealers in halal food administered by the Department of Agriculture. The Department of Public Health is reporting a new licensure program for home service and home nursing agencies and a regulatory framework for tattoo and body piercing establishments with a \$500 initial registration fee and \$50 charged for each additional work station. The State Police are now

charging a \$60/hour fee for an over dimensional load police escort with a minimum charge of \$300. A sign language interpreter licensure program has been established by the Deaf and Hard of Hearing Commission with an initial \$175 license fee. The Illinois Board of Higher Education has been authorized to collect an academic application processing fee from Illinois proprietary and all out-of-state institutions seeking approval to offer degree granting programs in Illinois. The fees, which include a \$250 notice of intent and authorization fee of up to \$5,000 depending on the size of the school and degree requested, is to help cover the Board's administrative costs.

Two new Environmental Protection Agency fees were created by the Electronics Products Recycling and Reuse Act. Under this act electronic products will be banned from landfills in 2012. To meet this goal, electronic product manufacturers are required to develop a system for the recycling or reuse of their products. Manufacturers pay a \$5,000 annual registration fee and recycling companies pay a \$2,000 annual fee.

The Federal New Markets Tax Credit (NMTC) is available to investors in approved funds which make investments in projects in low income census tracks. A new Illinois credit under the Illinois New Markets Development Program supplements the federal credit. To be certified to participate in this program, community development entities must pay the Department of Commerce and Economic Opportunity a \$5,000 application fee.

SPECIAL STUDY

Fee Revenues During a Major Recession

The current recession has resulted in an extraordinary drop in revenues from economically sensitive tax sources that have provided the bulk of state operating revenues. While revenues from these sources have plummeted, the recession has led to an increase in the demand for the services funded by those revenues. Between fiscal year 2008 and 2009, Illinois experienced a 10.6% decline in personal income tax receipts, an 8.1% decline in corporate income tax receipts, and a 6.1% decline in sales tax receipts. This is consistent with the declines in state revenue performance nationally with the Rockefeller Institute reporting declines of between 13.6% and 4.8% for these sources.

With expectations that state revenues will recover slowly, it is clear that the current revenue structure cannot support the existing level of spending. It will be necessary to reevaluate spending programs and the revenue sources underpinning that spending. As the Fee

Imposition Report shows, fees are the fourth largest state revenue source ranking behind the income and sales taxes and federal aid. The performance of fee revenues has not received the attention of the other major revenue sources since fees are a diffuse and varied revenue source scattered among many state funds with only a small portion directly deposited into the General Funds.

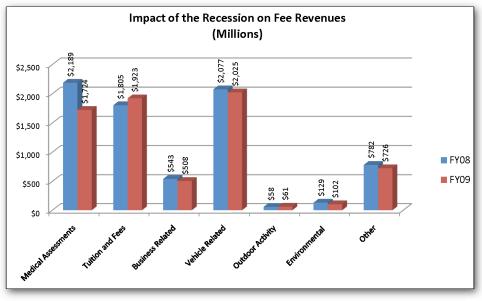

This study will examine the extent to which the 6.8% decline in Illinois fee revenues during fiscal year 2009

was caused by the recession rather than factors not related to economic performance. It attempts to identify the fees whose revenue growth is most likely to be synchronized with the business cycle and evaluates the revenue performance of these fees over the past fiscal year. The remaining fees are considered fees less likely to be impacted by the recession. If fees show more stability during recession that the economically sensitive major tax sources, an argument could be made that it would be

fiscally healthier to have fees assume a greater role in financing state functions.

The decline in fee revenues between fiscal year 2008 and fiscal year 2009 fee was in part due to the receipt of two years of hospital provider medical assessments in fiscal year 2008 to complete the fiscal year 2006 to 2008 assessment agreement, a factor not related to economic conditions. With a return to a more normal receipt level in fiscal year 2009, assessment receipts of \$1.724 billion were down \$465 million or 21.2% from their prior year level.

An analysis of the impact of the recession on fees should also exclude tuition and academic fees. For the other categories of economically sensitive fees, the expected impact of the recession on revenues is to lower the purchases or economic activities that generate fee revenues. The impact of the recession on tuition is completely different. Since universities are flexible in setting tuition and fee levels, higher rates can be used to offset the recession induced impact of lower state aid

and revenues from other sources. This is apparent as fiscal year 2009 tuition and fees of \$1.923 billion were up \$118 million or 6.5% from their prior year level.

With medical assessments and tuition and academic fees removed from the revenue totals, fiscal year 2009 fee revenues are now down \$167 million or 4.7%. Four types of activities have been identified whose fees might be sensitive to economic conditions. Revenues declined

for three of these types of fees in fiscal year 2009, but in two cases the decline was in part due to factors not related to the recession.

Business Related Fees

An obvious group of economically sensitive fees are the fees that are related to business activity. They primarily consist of corporate, partnership, and financial security issuance fees collected by the Secretary of State, financial institution and insurance fees collected by the Department of Financial and Professional Regulation, and security issuance fees from state bonding authorities such as the Illinois Finance Authority and the Illinois Housing Development Authority. Collections from many of these fees should be related to the level of business activity as business formations and security issuances decline during business downturns.

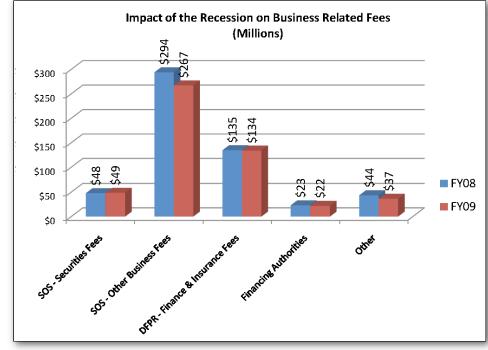

Revenues from business related fees declined \$35 million or 6.4% from \$543 million in fiscal year 2008 to \$508 million in fiscal year 2009. The main source of the decline in revenues for business fees was in other (cor-

\$186 million to \$164 million. This was due to the franchise tax amnesty effective during February and March 2008 which generated \$22 million in additional revenues for fiscal year 2008. Secretary of State securities division fees were up \$1 million to \$49 million in fiscal year 2009. The largest portion of these fees each year was \$24 million for securities sales person reregistrations. Financial and professional regulation business fees were little changed at \$135 million in fiscal year 2008 and \$134 million in fiscal year 2009. Among the largest of these fees, banking examination fees went from \$18 million to \$19 million, insurance financial regulation fees went from \$18 million to \$23 million, and insurance producer fees were unchanged at \$24 million. Financing authority fee revenues, which include fees for bond issuances, were down \$1 million to \$22 million for the fiscal year.

Environmental Fees

Environmental fee revenues are also likely to be impacted by business cycles as many of the fees are levied on the amount of waste generated. The two primary agencies collecting environmental fees are the Illinois

Environmental Protection Agency and the Illinois Emergency Management Agency (which absorbed the former Department of Nuclear Safety). Environmental fee revenues declined \$27 million or 20.9% from \$129 million in fiscal year 2008 to \$102 million in fiscal year 2009. The biggest drop was in the nuclear power reactor annual fee. This fee is assessed based on a mandated fund balance which causes variations in the amounts collected each year. Collections in fiscal year 2009 declined from \$26 million to \$8 million fully explaining the \$18

porate and partnership) business fees collected by the Secretary of State. In particular, revenues from the annual franchise tax levied on the capital and paid-in surplus of companies operating in Illinois dropped from decline in Emergency Management environmental fee revenues to \$13 million this fiscal year. Environmental Protection Agency environmental fee revenues declined \$8 million to \$70 million in fiscal year 2009. Revenues were down for most of the fees where collections reflected the volume of pollutant discharges such as the solid waste management fee (\$25 million in fiscal year 2008 and \$22 million in fiscal year 2009) and the national pollutant discharge elimination permit fee (\$20 million in fiscal year 2008 and \$19 million in fiscal year 2009). Finally, revenues from the \$2.50/tire sold tire user fee showed some sensitivity to the economic downturn declining \$1 million to \$16 million in fiscal year 2009.

Vehicle Related Fees

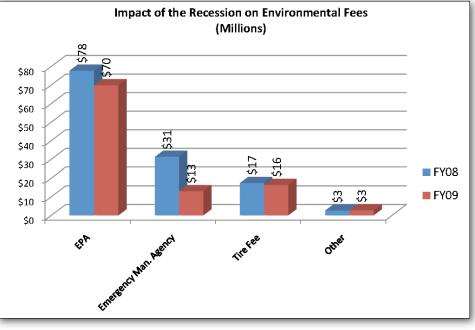

Vehicle related fees are primarily collected by the Secretary of State and the Toll Highway Authority. Drivers fees have been excluded from this study to

focus on fees more closely related to vehicle sales and usage. Vehicle usage fees of \$2.025 billion in fiscal vear 2009 were down \$52 million or 5.2% from fiscal year 2008. The bulk of vehicle fees are collected by the Secretary of State where fee collections declined 4.5% from \$1.447 billion in fiscal vear 2008 to \$1.382 billion fiscal year 2009. Revenues fell for each of the four SOS vehicle fees receiving over \$100 million per year. First division vehicle registrations declined \$19 million (2.5%) from \$705 million to \$685

million. Revenues from the proportional registration fee paid by interstate transportation companies declined \$14 million or 6.2% from \$228 million to \$214 million. Certificate of Title revenues fell \$18 million or 9.7% from \$183 million to \$166 million. And second division vehicle registration fees fell \$5 million or 4.5% from \$112 million to \$107 million. Toll Highway Authority revenues were up \$13 million or 2.0%. This was due to an \$16 million increase in violation collections which offset a \$3 million decline in toll collections (\$591 million in fiscal year 2008 and \$588 million in fiscal year 2009).

Fee collections for state outdoor activity and recreational services should be related to the amount of disposable income of Illinois residents. This category includes state fairground receipts and various fees collected by the Department of Natural Resources and the Historical Preservation Agency. Outdoor fees held up during the recession increasing \$3 million or 5.2% from \$58 million in fiscal year 2008 to \$61 million in fiscal year 2009. Fee revenues from hunting licenses and permits, the largest fee in this group, increased from \$23 million to \$24 million.

When the corporate franchise, toll violation, and annual nuclear reactor fees are removed from the totals for the business, environmental, vehicle related, and outdoor fee categories, there is still a 3.4% decline in fee

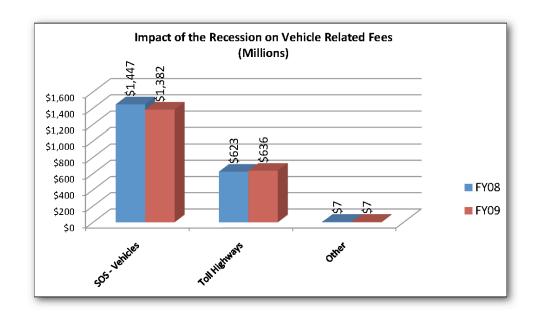

revenues for the economically sensitive group of fees between fiscal year 2008 and 2009. Revenues from these fees appear to be vulnerable to a serious recession, but not to the same degree as some of the tax sources upon which the state relies such as the corporate income tax levied on the highly variable level of corporate profits or the sales tax whose base includes substantial purchases of durable goods. Of course, sensitivity to the recession for a particular fee depends upon the stability of its base. A fee tied to new car sales such as the vehicle title fee is likely to have less revenue stability than the annual vehicle registration fee which is tied to the full stock of motor vehicles.

Inflation may actually be the greater risk when fees are used to fund state programs. With the few key exceptions of university tuition and fees and fees linked to security sales or financial institution assets, the bulk of fees are levied at fixed rates per transaction that are rarely changed. The use of fees to fund state programs may be relatively safe during recessions. However, without a practice of regularly reviewing rates and making adjustments where revenues are no longer sufficient to cover program costs, fee revenues would not be able to keep up with cost increases during periods of inflation.

Long-time students of state finance recognize that state finances are unlikely to return to the balance existing before the great recession. A recent study by the Pew Foundation notes "Around the country, the worst economic downturn since the 1930s forced states to consider new ways of thinking about what could be a slimming down of government lasting several years. Once

states get past the immediate crisis of plugging recordhigh budget gaps, they will confront the likelihood that the recession will impose permanent changes in the size of government and in how states deliver services, who pays for them and which ones take priority in an era of competing interests." (The Pew Center on the States, State of the States 2010, How the Recession Might Change States, February 2010).

It seems to be generally accepted that universities have to count less on state sources and more on their own resources for continuing operations leading to a grudging acceptance of the need for regular tuition increases as states are no longer able to provide increased resources for higher education. The future may see this attitude spreading to other traditional governmental programs such as state parks and historic sites and additional regulatory activities with an acceptance that nontax resources such as fees will need to be the source of an increased share of resources for these programs.

A REVIEW OF FISCAL YEAR 2009 FEES

Agencies That Collected More Than \$50 Million in Fees

Sixteen agencies collected over \$50 million in fees in fiscal year 2009 including four agencies that collected over \$500 million in fee revenues. As a group, the sixteen agencies collected over \$6.7 billion in fee revenues or 95.3% of total state fee collections.

The fees collected by both the first and fourth largest collecting agencies are largely related to vehicular transportation. The Secretary of State reported fee revenue of \$1.836 billion or 26.0% of the total, while the Toll Highway Authority reported \$640 million (9.1%) in revenue from fees and tolls.

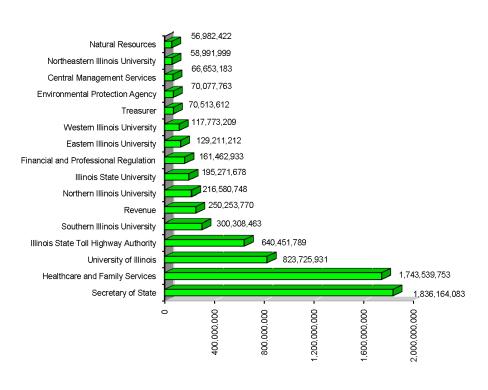

Although it reported only ten fees, the Department of Healthcare and Family Services ranked second among agencies and accounted for \$1.744 billion or 24.7% of fee revenues. This was almost entirely collected from medical providers under the Medicaid assessment programs. These included \$899 million from the Hospital

Provider, \$748 million under the County Hospital Services, \$57 million under the Long Term Care, and \$20 million under the Long Term Care -Developmentally Disabled Provider Participation Fees. Participation fees increase the funds available for state Medicaid spending with an additional bonus due to the associated federal reimbursement for Medicaid spending. addition, the agency received \$18 million in child health insurance fees.

State universities accounted for seven of the agencies collecting at least \$50 million in fees with a combined \$1.842 billion in tuition and fee revenues. When fee revenues from the other two state universities are included, the total comes to \$1.915 billion or 27.1% of statewide fee revenue.

Among the remaining agencies collecting over \$50 million in fees, the Department of Revenue ranked sixth with \$250 million in fee revenues. The largest components for the Department of Revenue were \$85 million from the energy assistance charge on gas and electric service deposited into the Supplemental Low Income Energy Assistance Fund, \$75 million from the 0.8 cent/gallon environmental impact fee deposited into the Underground Storage Tank Fund, \$23 million from the 0.5% Telecommunications Infrastructure Maintenance Fee deposited into the Personal Property Tax Replacement Fund to help local governments offset the revenue loss from the elimination of the personal property tax on business property, \$18 million from the Rental Housing Support Surcharge, and \$16 million for the \$2.50/tire Tire User Fee. The Department of Financial and Professional Regulation ranked ninth with \$161 million in fees collected for the regulation of banks, savings and loans, other financial institutions, and healthcare and other regulated professions. The largest fees are \$27 million for the 1.01% surcharge on workers compensation premiums to fund the Workers'

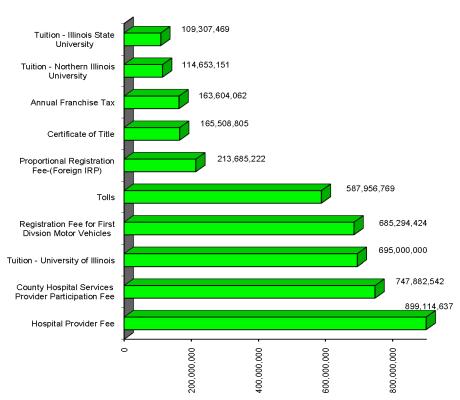

Fee Revenue by Agency Dollars

Compensation Commission and \$24 million from various licenses paid by insurance producers.

The State Treasurer collected \$71 million primarily related to penalties from criminal violations sent to the Treasurer by circuit courts. In fiscal year 2009, these charges provided \$21 million to Traffic and Criminal Conviction Surcharge Fund and \$13 million to the Trauma Center Fund. The EPA collected \$70 million in fee revenues whose major components were the Solid Waste Management Fee (\$22 million), the National

Fees Generating the Largest Revenues (Dollars)

Pollutant Discharge Elimination Permit Fee (\$19 million), and the Clean Air Act Title V Permit Fee (\$14 million). Health insurance collections from local governmental units accounted for \$56 million of CMS fees. Hunting fees were the largest revenue generator among Department of Natural Resources fees with \$24 million in receipts.

The Ten Largest Revenue Generating Fees

Although state agencies reported 1,394 fees in fiscal year 2009, the ten largest fees, which all generated revenues of at least \$109 million, accounted for almost \$4.4 billion or 62.0% of total fee revenue.

The two largest fees in terms of revenue are the Hospital Provider Fee (\$899 million) and the County Hospital Services Provider Participation Fee (\$748 million) collected by the Department of Healthcare and Family

Services. These levies on medical providers help finance the Medicaid program through increased federal cost sharing contributions and higher Medicaid rates.

Four of the top ten revenue-generating fees are collected from the users of the state's roadways. The fourth largest fee in terms of revenues is the registration fee for first division motor vehicles (\$685 million) collected by the Secretary of State. The sixth largest fee is the proportional registration fee (\$214 million) for vehicle owners operating fleets in Illinois and other states. Automobile and truck registration fees are combined with other state and federal revenues to help finance the state's road program. The \$65 per vehicle Title Certificate (\$166 million) is divided between \$122 million into the Road Construction Account Funds, \$28 million into the General Revenue Fund, \$10 million into the Motor Vehicle License Plate Fund to help

pay for new license plates, and \$5 million into the Park and Conservation Fund. In addition, highway tolls of \$588 million were the major revenue source for the toll highway system serving northern Illinois.

The remaining top ten fees include tuition for the University of Illinois, Northern Illinois University, and Illinois State University and the annual corporate franchise tax collected by the Secretary of State. The four

Rates of \$25,000 or More				
Fee Name	Agency Name	Fee Rate		
Nuclear Power Reactor Annual Fee	Emergency Management Agency	\$878,864		
Off-Site Hazardous Waste Disposal Site Operator Fee	Environmental Protection Agency	70,000		
School of Medicine, Non-Resident	University of Illinois	57,064		
Solid Waste Management Fee	Environmental Protection Agency	52,630		
School of Dentistry, Non-Resident	University of Illinois	52,226		
Riverboat Gambling Owner's License and Application Fee	Revenue	50,000		
Fraternity Housing Rental Rate	Southern Illinois University	48,905		
Universal Carrier Registration Fee, 1001+ vehicles	Commerce Commission	37,500		
Veterinary Medicine, Non-Resident	University of Illinois	36,704		
School of Law, Non-Resident	University of Illinois	36,000		
Low-Level Radioactive Waste Reactor Operator Annual Fee	Emergency Management Agency	30,000		
MBA Program, Non-Resident	University of Illinois	29,058		
Graduate Nursing, Non-Resident	University of Illinois	27,590		
Pharmacy, Non-Resident	University of Illinois	25,556		
Graduate Engineering, Non-Resident	University of Illinois	25,384		
Renewable Energy Application Fee	Illinois Finance Authority	25,000		
Radioactive Material License Fee	Emergency Management Agency	25,000		
Waste Storage Facility Annual Fee	Emergency Management Agency	25,000		

Secretary of State fees in the top ten received \$1.228 billion or 66.9% of total Secretary of State fee revenues.

Fee Rates of \$25,000 or More

Fee rates vary from small amounts such as 50 cents to copy a page of a document to the largest reported rate of almost \$1 million. A query of rates charged for the 1,394 reported fees revealed 18 fees had rates that were at least \$25,000.

Environmental regulation fees account for six of the eighteen costliest fees. Four are levied by the Illinois Emergency Management Agency as part of its responsibility to regulate the nuclear energy industry and users of radioactive materials and two are levied by the Environmental Protection Agency. At the top of the list is Illinois' highest cost fee, the annual fee paid by nuclear power reactor owners to cover the cost of establishing plans and programs to deal with the possibility of nuclear accidents. In fiscal year 2009, the owners of each of Illinois' eleven reactors owed a fee of \$878,864 after a credit for accumulated prior year fund balances. The second most expensive fee is the off-site hazardous waste disposal site operator fee administered by the EPA with a \$70,000 annual rate.

Among the other high rate fees are nine administered by universities. The high rate university fees include non-resident tuition for the University of Illinois Schools of Medicine, Dentistry, Veterinary Medicine, Nursing, Law, Business, Pharmacy and Engineering. Southern Illinois University also exceeds the \$25,000 threshold for a fraternity house rental charge. Non-resident tuition at the SIU Medical and Dental Schools would exceed \$25,000 if reported on an annualized basis.

The riverboat gambling owner's license fee has a base rate of \$50,000. However, applicants owe any excess costs for performing an investigation; while, if the investigation costs are less than \$50,000 the applicant receives a partial refund. Thus the actual value of this fee has become the cost of investigating the applicant.

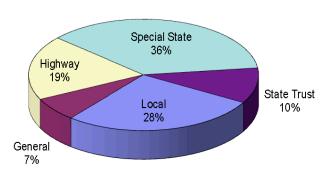

The remaining fees include the \$25,000 renewable energy application fee collected by the Illinois Finance Authority for major energy projects such as ethanol plants and the \$37,500 Universal Carrier Registration (UCR) fee for interstate motor carriers with over 1,000 vehicles. The UCR replaced the repealed Single State Registration System. Other high cost fees are charged as a percentage of project costs such as payments to state and regional finance authorities where the fee is a percentage of the authorized bond issue or fees charged by the Department of Public Health to review health care facility applications. Individual fees can exceed \$25,000 for large bond issues or health care projects.

Special State Funds are the Biggest Recipient of Fee Revenues

The lion's share of fee revenues are deposited into funds from which monies can only be spent for restricted purposes. Of the \$7.069 billion in fee revenues collected in fiscal year 2009, \$6.585 billion or 93% was deposited into a wide variety of these restricted funds. The remaining \$484 million (7%) was deposited into the state's General Funds.

The largest portion of fee receipts, \$2.575 billion or 36%, were deposited in Special State Funds. The majority (64%) of this amount consisted of \$899 million in Hospital Provider Medicaid provider participation fees deposited into the Hospital Provider Fund and \$748 million in Cook County Hospital Medicaid provider participation fees deposited into the County Provider Trust Fund. State Trust Funds received \$727 million in fee revenues (10% of total fees) primarily consisting of the \$640 million deposited into the Illinois State Toll Highway Revenue Fund.

\$7.1 Billion in Fees by Fund Group Fiscal Year 2009

Locally held funds are funds that are controlled by the recipient agency rather than by the State Treasurer. Most locally held funds are not subject to the same budgetary controls by the Governor and General Assembly as treasury held funds. As a result, spending of receipts into these funds is determined by an agency's internal budget practices subject to the applicable statutes and rules.

During fiscal year 2009, \$1.942 billion or 28% of fee revenues was deposited into these funds. Most of this money consisted of university tuition and income from auxiliary enterprises such as payments for room and board (\$1.915 billion). Another common type of fee deposited into locally held funds are fees paid to state-chartered finance authorities that issue revenue bonds.

Highway Funds are the final fund group that receives significant fee receipts. In fiscal year 2009, \$1.324 billion or 19% of fee revenues were deposited into these funds. Almost all these monies (\$1.303 billion) are collected by the Secretary of State and deposited into the Road Fund and the State Construction Account Fund.

The Impact of Fees on State Funds

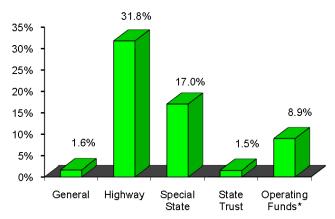

If the \$7.1 billion in fee revenues were tracked as a single combined source, they would have been the fourth largest state revenue source in fiscal year 2009, trailing the state income taxes (\$12.3 billion), federal aid (\$16.4 billion), and the state sales taxes (\$8.2 billion).

General Funds receipts in fiscal year 2009 totaled \$29.9 billion. Over half of these revenues were sales and income tax receipts. Fee revenues of \$484 million comprised only 1.6% of this total. Most (90%) of General Funds fee revenues came from Secretary of State fees. This analysis excludes any impact increased fee deposits may have had in allowing the transfer of surplus funds to the General Revenue Fund under the transfer authorities effective in fiscal year 2009.

In contrast to the General Funds, fees are an extremely important source of revenues for Highway Funds. In fiscal year 2009, fee revenues of \$1.324 billion accounted for 31.8% of total receipts. Fees are also an important revenue source for the Special State Funds where \$2.575 billion in fee revenues made up 17.0% of deposits into this fund group.

In fiscal year 2009, fee revenues into the General, Highway, and Special State Funds (the fund groups that receive most state monies for operating purposes) totaled \$4.4 billion. This was 8.9% of total revenues of \$49.2 billion for these fund groups.

Types of Fees in Illinois

Fees are paid both by individuals and organizations. Fees paid by individuals can be separated into occupational licensing charges, tuition and other educational fees and personal service and user charges.

Fees paid by organizations include the various regulatory, licensing and registration charges paid by corporations, partnerships, nonprofits (such as charities) and labor unions. A special assessments category includes the small number of fees (primarily Medicaid provider participation fees) intended to be major revenue generators, rather than the more typical fee purposes of regulating an activity or raising revenues to help fund a specific program.

An additional category includes the various copying and court filing fees that could not readily be associated with either individual or organization payments.

In fiscal year 2009, fees generally paid by individuals accounted for 37% of fees and 56% of fee revenues, while those generally paid by organizations accounted for 50% of fees and 44% of revenues.

The large proportion of business fees reflects the various state agencies including the Departments of Agriculture, Financial and Professional Regulation,

Labor, Public Health, the Environmental Protection Agency and the Emergency Management Agency as well as the business and security regulation departments of the Secretary of State that have regulatory functions. Business fees did not represent nearly as large a share of fee revenues accounting for 19% of reported revenues.

The largest source of fee revenues was from personal service and user charges which include vehicle and drivers licenses and tolls and accounted for 28% of fee revenues. The second major source of fee revenues was tuition and related fees which accounted for 14% of the

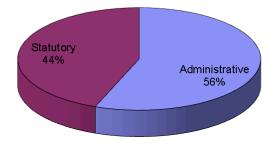

number of fees and 27% of fee revenues. The five special taxes and assessments raised \$1.7 billion which was 24% of revenues.

Who Sets Fee Rates?

All fees charged by state agencies are imposed under statutory authority granted by the General Assembly. Sometimes fee rates are set within the authorizing statute. For the remaining fees, agencies are given authority to set fee rates through administrative procedures.

There are merits to both methods of setting fee rates. Rates set by the General Assembly have to face the full scrutiny of the legislature and Governor. On the other hand, rates that are set administratively are more flexible and can more easily be adjusted to changing pro-

Number of Fees by Authorization Fiscal Year 2009

gram financial needs. These may also be subject to scrutiny through the administrative rulemaking process.

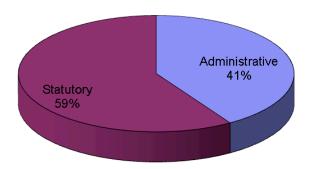

Number of Fees by Authorization

An examination of the statutory authorization for fees listed in the Fee Registry indicates that less than half of the fees (44%) had their rates set by statute. The remaining 56% had rates set through various administrative procedures. A significant portion of the fee rates that are set administratively are university tuition and fees which are set by university governing bodies.

Fee Revenues by Authorization

Although most of the reported fees had their rates set administratively, more fee revenue comes from fees with rates set by statute than from fees with rates set by agencies. In fiscal year 2009, 59% of fee revenue was from fees with rates set by statute versus 41% from fees with rates set by administrative procedure. The largest portion of fee revenues from fees with statutory rates

Fee Revenue by Authorization Fiscal Year 2009

are from Secretary of State fees and medical assessments. Significant fees with rates set administratively are university tuition and fees and highway tolls.

Illinois Fees in Perspective

Fiscal year 2008 Census financial data collected for all state governments was used to compare the level of fees charged in Illinois with other states. Illinois exceeded

national averages in fees related to vehicle usage, while collecting less than the national average in other fees.

Vehicle related fees include motor vehicle and vehicle operators' licenses, tolls, and other highway fees. Per capita vehicle fees in Illinois of \$159.25 were \$66.69 or 72.1% greater than the national average. This in part

	Vehicle Fees	Other Fees
State	Per Capita*	Per Capita
California	\$81.39	\$203.55
Florida	125.34	165.33
Illinois	159.25	87.21
Indiana	71.02	111.92
lowa	141.16	140.20
Kentucky	55.02	119.96
Michigan	96.44	61.28
Missouri	48.82	91.67
New York	85.62	107.85
Ohio	96.00	179.44
Pennsylvania	119.32	218.98
Texas	70.08	261.35
Wisconsin	84.86	197.22
United States	\$92.56	\$170.46

* Includes Motor Vehicle and Vehicle Operators Licenses and Tolls and Other Highway Charges.

Source: United States Census Bureau, Annual Survey of Government Finances for 2008.

reflects Illinois being one of 12 states that collect significant (over \$100 million) toll revenues. Illinois' per capita vehicle fees ranked highest among a comparison of thirteen large or neighboring states. Among the remaining states, only residents of Iowa (\$141.16), Florida (\$125.34), and Pennsylvania (\$119.32) spent more than \$100 per capita on vehicle related fees.

Significant other fees included in our comparison are corporate franchise and business licence fees, hunting and fishing licenses, occupational licenses, and park and recreation charges. University fees and medical assessments are the major items from this report that are not included in the comparison. Per capita Illinois other fees of \$87.21 were 51.2% of the national average of \$170.46 and were second lowest among the states studied trailing only Michigan (\$61.28).

APPENDIX E OBTAINING DETAILED FEE INFORMATION

Agency Fee Imposition Report submissions are available on the State Comptroller's web site. To access the detailed submissions:

- Go to the Comptroller's web site: http://www.ioc.state.il.us/
- Move the mouse pointer over the Departments button on the upper section of the page.
- Click on the Research and Fiscal button.
- Click on the Detailed Fee Data button under the menu on the left side of the page.
- Use the drop down box to select the agency of interest. Then select the appropriate fiscal year, and click on the Select Agency button.
- Reports can be created for all fees for the agency or a selected group of fees. If Select Fees is chosen, use the drop down boxes to choose the first and last fees of the desired group of fees.
- Four standardized reports can be created. The Fee Registry and Rates report contains fee descriptions and rate information. The Deposit Details report contains deposits by fund for each fee. The Deposit Summary report prints a summary list of fee names and total deposit amounts. The Programs Funded report prints a listing of the programs funded and the authorization for funding such programs for each fee.
- The above reports are viewed as HTML files with a separate page for each fee.

If you have any additional questions about the Fee Imposition Report, please contact Loren Iglarsh at 217/782-7921.
